Training Course: Advanced Procurement and Cost Optimization

Training Course code: MA235662 From: 19 - 23 January 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3250 € Euro

Introduction

The "Advanced Procurement and Cost Optimization" training program is meticulously designed by Global Horizon Training Center to empower professionals with cutting-edge procurement strategies and cost-management tools. This program addresses the dynamic challenges of procurement by integrating advanced techniques to optimize sourcing and reduce expenses. Participants will gain in-depth insights into global best practices while developing the skills to manage procurement processes efficiently and align them with organizational goals. By attending, professionals can ensure their organizations achieve sustainable cost savings and maintain competitive advantages in today's market.

Objectives

- Equip participants with advanced procurement strategies to optimize supply chain efficiency.
- Develop skills to identify and implement cost-saving opportunities across procurement processes.
- Enhance understanding of contract negotiation and supplier relationship management.
- Explore tools and methodologies to assess procurement performance and risk management.
- Build competencies to align procurement goals with broader organizational objectives.

Course Methodology

- Interactive lectures delivered by industry experts.
- Real-world case studies and group discussions to foster practical understanding.
- Hands-on exercises and simulations to apply learned concepts.
- Utilization of procurement software tools and analytics platforms.
- Structured feedback and post-course assessments for knowledge retention.
- Networking opportunities with professionals to share best practices.

Organizational Impact

- Improved procurement processes leading to significant cost savings.
- Enhanced supplier collaboration and contract efficiency.
- Strengthened risk management across supply chain operations.
- Increased competitiveness through streamlined procurement practices.
- Development of an in-house pool of procurement and cost-optimization experts.

Target Audience

- Procurement managers and supply chain professionals.
- Finance and cost management executives involved in procurement decisions.
- Project managers overseeing procurement-heavy operations.
- Professionals in contract negotiation and vendor management roles.
- Consultants and analysts specializing in supply chain and cost optimization.

5-Day Detailed Course Outline

Day 1: Fundamentals of Advanced Procurement

- Overview of advanced procurement trends and challenges.
- Strategic procurement planning and alignment with business goals.
- Supplier selection criteria and evaluation techniques.
- Introduction to cost analysis and total cost of ownership TCO.
