

*Training Course:  
Installation and Maintenance of Grounding  
Networks for 30/11 kV Stations*

*27 July - 7 August 2025  
Istanbul (Turkey)  
DoubleTree by Hilton Istanbul Esentepe*

## Training Course: Installation and Maintenance of Grounding Networks for 30/11 kV Stations

Training Course code: EN235692 From: 27 July - 7 August 2025 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 10400 € Euro

### Introduction

This program focuses on the installation, maintenance, and testing of grounding networks in 30/11 kV substations. Proper grounding is critical for safety, operational efficiency, and protection of electrical systems. Participants will gain in-depth knowledge of grounding principles, design standards, installation techniques, and maintenance practices.

### Objectives

- Understand the role and importance of grounding networks in electrical safety.
- Learn design considerations for grounding networks in 30/11 kV substations.
- Master the techniques for installation and testing of grounding systems.
- Develop skills for troubleshooting and maintaining grounding networks.
- Ensure compliance with industry standards and regulations.

### Target Audience

- Electrical engineers and technicians.
- Substation maintenance teams.
- Electrical safety officers.
- Professionals involved in substation design and installation.

### Outlines

#### Day 1: Introduction to Grounding Systems

- Purpose and benefits of grounding.
- Types of grounding systems TN, TT, IT.
- Overview of grounding in 30/11 kV substations.

#### Day 2: Principles of Electrical Grounding

- Electrical theory related to grounding.
- Ground resistance and its significance.
- Fault currents and their impact on grounding systems.

#### Day 3: Grounding Network Design for 30/11 kV Stations

- Key design considerations for substations.
- Soil resistivity and its effect on grounding.
- Design tools and software for grounding networks.

#### Day 4: Standards and Regulations

- International grounding standards e.g., IEEE, IEC.
- Local regulatory requirements for grounding networks.
- Ensuring compliance with safety codes.

#### Day 5: Installation Techniques

- Installation of ground rods, grids, and mats.
- Connecting equipment to the grounding network.
- Tools and materials for effective installation.

#### Day 6: Testing and Inspection

- Methods for measuring ground resistance e.g., fall-of-potential, clamp meters.
- Testing continuity of grounding systems.
- Ensuring the integrity of connections and conductors.

#### Day 7: Maintenance of Grounding Networks

- Routine inspections and checks.
- Addressing corrosion and wear in grounding components.
- Upgrading and enhancing existing networks.

#### Day 8: Troubleshooting Grounding Issues

- Identifying common grounding problems.
- Analyzing and resolving high ground resistance.
- Mitigating step and touch potential hazards.

#### Day 9: Grounding in Special Conditions

- Grounding in high-resistance soils.
- Techniques for substations in urban and industrial environments.
- Managing grounding in extreme weather conditions.

#### Day 10: Practical Applications and Case Studies

- Hands-on installation and testing in a simulated environment.
- Real-world case studies on grounding failures and successes.
- Participant project: Designing a grounding system for a 30/11 kV substation.

## Registration form on the Training Course: Installation and Maintenance of Grounding Networks for 30/11 kV Stations

**Training Course code:** EN235692 **From:** 27 July - 7 August 2025 **Venue:** Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe **Training Course Fees:** 10400 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Company Information

Company Name: .....  
 Address: .....  
 City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Payment Method

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
