Training Course: Mastering Business Data Collection, Analysis, and Presentation

Training Course code: SC235328 From: 10 - 14 November 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 € Euro

Introduction:

This training program is designed to equip participants with the essential skills and knowledge required to effectively collect, analyze, and present business data. In today's data-driven business environment, the ability to gather, interpret, and communicate data insights is crucial for making informed decisions and driving organizational success.

Objectives:

- Understand the importance of data in decision-making processes.
- Learn techniques for collecting and organizing business data effectively.
- Develop skills in analyzing and interpreting data to extract actionable insights.
- Gain proficiency in presenting data findings clearly and persuasively to stakeholders.
- Apply data visualization principles to enhance the impact of presentations.

Target Audience:

This training program is suitable for professionals across various industries who work with data or are involved in decision-making processes. It is particularly beneficial for:

- Business analysts
- Data analysts
- Managers and team leaders
- Marketing and sales professionals
- Operations and project managers
- Anyone interested in enhancing their data literacy skills

Outlines:

Day 1:

Introduction to Business Data Analysis

- Understanding the role of data in business decision-making
