Training Course: Logistics & Transport Management

Training Course code: PU4097 From: 19 - 23 May 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5500 € Euro

Introduction

Effective management of the flow of materials throughout an organization's supply chain is of critical importance. In this program you will learn how to:

- Utilize modern purchasing management techniques
- Sharpen your negotiation skills
- Manage inventories in a more productive manner
- Improve control over warehouse and transportation operations

Course Objectives

- Examine the most effective purchasing practices
- Learn new trends in supplier management
- Gain greater insight into the negotiation process
- Study the use of negotiation techniques
- Develop a strategy to better manage inventories
- Examine inventory reduction techniques
- Explore new methods and technologies in warehousing
- Analyze the function of transportation management

Methodology

Participants will learn by active participation during the program through the presentation of program material, exercises, training videos and discussions of "real life" issues in their organizations.

The quality of operations in the logistics function has a direct impact on the operating performance of an organization. This program is focused on the most modern techniques for the improved management of the flow of materials into and through the organization. It is concerned with all the areas responsible for the logistics process including procurement, inventory management, warehousing, and transportation. The seminar also covers the

negotiation skills necessary to obtain your requirements in all of these areas.
