

Training Course:
*Wastewater Treatment Plant Management: Best
Practices for Efficiency and Compliance*

7 - 11 December 2025

Dubai (UAE)

Residence Inn by Marriott Sheikh Zayed Road, Dubai

Training Course: Wastewater Treatment Plant Management: Best Practices for Efficiency and Compliance

Training Course code: EW235590 From: 7 - 11 December 2025 Venue: Dubai (UAE) - Residence Inn by Marriott Sheikh Zayed Road, Dubai Training Course Fees: 5300 € Euro

Introduction

This 5-day training program is designed to equip wastewater treatment plant managers with the knowledge and skills necessary to optimize plant operations, ensure regulatory compliance, and improve overall efficiency. Managers will learn about the latest trends, technologies, and best practices for effectively running a wastewater treatment plant. The program will focus on strategic decision-making, performance management, environmental sustainability, and the financial aspects of plant management.

Target Audience

- WWTP Managers and Supervisors
- Environmental Managers
- Operations Managers
- Technical Directors
- Senior Engineers in the Water Industry

Objectives

By the end of the program, participants will be able to:

- Understand the regulatory and environmental frameworks governing wastewater treatment plants.
- Develop strategies to optimize plant operations and ensure environmental compliance.
- Implement best practices for efficient resource and energy management.
- Enhance leadership and decision-making skills for wastewater management.
- Manage financial resources effectively while maintaining operational efficiency.

Training Program Outline

Day 1: Wastewater Treatment and Regulatory Compliance

- Session 1: Overview of Wastewater Treatment Processes
 - Introduction to wastewater treatment methods

- Key components and technologies used in modern WWTPs
- Role of management in overseeing plant operations
- Session 2: Environmental and Regulatory Frameworks
 - Key environmental regulations affecting WWTPs e.g., EPA, local legislation
 - Understanding compliance obligations
 - Strategies to ensure continuous regulatory compliance
- Session 3: Risk Management and Compliance Audits
 - Risk assessment tools and methods for WWTPs
 - Conducting internal and external audits
 - Dealing with violations and penalties: How to prepare and respond

Day 2: Operational Efficiency and Performance Management

- Session 1: Optimizing Plant Operations
 - Monitoring and optimizing wastewater treatment processes
 - Using SCADA and other digital tools to improve efficiency
 - Maintenance best practices for reducing downtime
- Session 2: Key Performance Indicators KPIs for WWTPs
 - Identifying and tracking essential KPIs
 - Performance reporting for management-level decisions
 - How to set realistic goals for plant operations
- Session 3: Energy and Resource Management in WWTPs
 - Strategies for energy efficiency in WWTPs
 - Water and waste recycling opportunities
 - Cost reduction through effective resource management

Day 3: Financial Management and Budgeting for WWTPs

- Session 1: Financial Planning and Budgeting

- Developing budgets for operational, capital, and maintenance projects
- Forecasting expenses and managing unexpected costs
- Understanding the financial implications of regulatory compliance
- Session 2: Cost Optimization Strategies
 - Identifying cost-saving opportunities without compromising quality
 - Optimizing staffing, energy, and resource expenditures
 - Assessing financial risks and making data-driven decisions
- Session 3: Investment and Capital Projects Management
 - Planning for infrastructure upgrades and technological innovations
 - Justifying capital investments to stakeholders
 - Managing large-scale projects within budget constraints

Day 4: Leadership and Team Management in WWTPs

- Session 1: Effective Leadership in Wastewater Management
 - Leadership styles and their impact on plant operations
 - Building a strong management team
 - Creating a culture of accountability and continuous improvement
- Session 2: Change Management in WWTPs
 - Managing technological and operational changes
 - Communication strategies during transitions
 - Training and developing staff for future challenges
- Session 3: Conflict Resolution and Team Collaboration
 - Techniques for managing workplace conflicts
 - Enhancing collaboration between operational and technical teams
 - Motivating teams for high performance

Day 5: Strategic Planning and Future Trends

- Session 1: Strategic Planning for WWTPs
 - Developing long-term operational and sustainability goals
 - Scenario planning for growth and environmental changes
 - Aligning WWTP goals with organizational and regulatory objectives
- Session 2: Technological Advancements and Future Trends
 - Exploring emerging technologies in wastewater treatment
 - Implementing automation, AI, and machine learning in plant operations
 - Preparing for the future of decentralized water management
- Session 3: Sustainability and Environmental Stewardship
 - Implementing sustainable practices in wastewater treatment
 - Reducing environmental impact through green technologies
 - Engaging with communities and stakeholders on sustainability initiatives
