Training Course: Developing an Effective Safety Culture

Training Course code: HE7023 From: 7 - 11 September 2025 Venue: Manama (Bahrain) - Fraser Suites Training Course
Fees: 4900 € Euro

Introduction

An effective safety culture is vital for developing and implementing a successful safety management system. Preventing major accidents requires everyone to follow safety practices and intervene when unsafe behaviors are observed. This course emphasizes personal responsibility and engagement to improve safety culture. Participants will learn the impact of safety culture, methods to establish improvement processes, ways to foster behavioral change, assess organizational safety culture, and explore theories from Taylor, Herzberg, Vroom, Geller, and Maslow.

Objectives

- Have a clear understanding of human factors and their application to their organization's current safety cultural status
- Be familiar with elements of safety management systems and their purpose
- Appreciate the consequences of behavioral acts and omissions as prime causes of accidents and emergency situations
- Be able to develop a step-by-step safety cultural improvement program within their own organization
- Develop an appreciation of carrying out an HSE cultural positional assessment
- Develop skills for identifying, evaluating and reconciling solutions for influencing behavioral change improvement measures

Methodology

Participants will learn by active participation during the program through the use of exercises, case studies, and open discussion forums. Videos shown will encourage further discussions and delegates are encouraged to bring forth experiences and problems from their own organizations. The program will be run using PowerPoint slides, copies of which will be distributed both in hard and soft copies.

Organizational Impact

- Professional development of staff
- Improved communications
- Improved safety behavior
- Reduction in incidents

- Practical steps for changing culture
- Leaders better equipped to face adversity of incidents head-on

Personal Impact

- Understand the integrated approach of Safety Culture
- Be able to assess the safety culture of the organization
- Practical methods to improve safety behavior
- Appreciate the needs, drives, and motivation of staff
- Develop an SMS based on safety culture principles
- The power of reinforcement and recognition
