Training Course: Maintenance Services Estimation Cost for facilities

Training Course code: EN235004 From: 21 December 2025 - 1 January 2026 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel Training Course Fees: 7450 € Euro

Introduction:

Maintenance services estimation cost is an essential aspect of facilities management, and it involves determining the cost of maintaining a facility's physical assets, including civil, mechanical, and electrical equipment. The estimation of maintenance services cost is critical in ensuring that a facility runs efficiently, and it is crucial in budgeting for maintenance services. This training program is designed to equip participants with the necessary skills to estimate maintenance services costs for facilities.

Objectives:

The main objectives of this training program are to:

- Understand the concept of maintenance services estimation cost for facilities.
- Identify the different types of maintenance services required for facilities.
- Understand the various factors that affect maintenance services cost estimation.
- Learn the principles of estimating maintenance services cost for civil, mechanical, and electrical equipment.
- Develop skills to prepare accurate maintenance services cost estimates.
- Learn to interpret and analyze maintenance services cost estimates.

Target Audience:

This training program is designed for professionals involved in facilities management, including facility managers, maintenance managers, maintenance engineers, and technicians. It is also suitable for project managers, cost estimators, and anyone involved in estimating maintenance services cost for facilities.

Outlines:

Day 1:

Introduction to Maintenance Services Estimation Cost for Facilities

- Understanding the concept of maintenance services cost estimation for facilities.
- Importance of maintenance services cost estimation in facilities management.
- Types of maintenance services required for facilities.

Day 2:

Factors that Affect Maintenance Services Cost Estimation

- Identifying the factors that affect maintenance services cost estimation.
- Factors that affect civil maintenance services cost estimation.
- Factors that affect mechanical maintenance services cost estimation.
- Factors that affect electrical maintenance services cost estimation.

Day 3:

Principles of Estimating Civil Maintenance Services Cost

- Understanding the principles of estimating civil maintenance services cost.
- Types of civil maintenance services.
- Factors that affect civil maintenance services cost estimation.
- Estimating civil maintenance services cost using different methods.

Day 4:

Principles of Estimating Mechanical Maintenance Services Cost

- Understanding the principles of estimating mechanical maintenance services cost.
- Types of mechanical maintenance services.
- Factors that affect mechanical maintenance services cost estimation.
- Estimating mechanical maintenance services cost using different methods.

Day 5:

Principles of Estimating Electrical Maintenance Services Cost

- Understanding the principles of estimating electrical maintenance services cost.
- Types of electrical maintenance services.
- Factors that affect electrical maintenance services cost estimation.
- Estimating electrical maintenance services cost using different methods.

Day 6:

Principles of Estimating Technicians / Manpower Maintenance Services Cost

- Understanding the principles of estimating technicians / manpower maintenance services cost.
- Types of technicians / manpower maintenance services.
- Factors that affect technicians / manpower maintenance services cost estimation.
- Estimating technicians / manpower maintenance services cost using different methods.

Day 7:

Preparation of Maintenance Services Cost Estimates

- Developing skills to prepare accurate maintenance services cost estimates.
- Techniques for collecting data for maintenance services cost estimation.
- Analyzing maintenance services cost estimates.

Day 8:

Interpreting Maintenance Services Cost Estimates

- Understanding how to interpret and analyze maintenance services cost estimates.
- Identifying the strengths and weaknesses of maintenance services cost estimates.
- Making informed decisions based on maintenance services cost estimates.

Day 9:

Budgeting for Maintenance Services

- Understanding the importance of budgeting for maintenance services.
- Developing a budget for maintenance services based on cost estimates.
- Identifying cost-saving opportunities in maintenance services.

Day 10:

Review and Assessment

- Reviewing the key concepts learned throughout the training program.
- Assessing the effectiveness of the training program.
- Developing an action plan to implement the skills learned in the training program.
