Training Course: Improving Public Sector Productivity through Prioritization, Measurement and Alignment

Training Course code: MA234572 From: 16 - 20 June 2025 Venue: Tbilisi (Georgia) - Training Course Fees: 5500 € Euro

Introduction

Productivity isn't everything, but in the long run, it is almost everything

Government productivity is often overlooked in the national productivity debate. Productivity discussions and analyses have traditionally focused on market sectors, where goods and services are traded and are therefore more easily valued in monetary terms.

Output in government services is more difficult to define and value.

Objectives

- Describe the overall public sector structure and the need for competitiveness to achieve national prosperity and growth
- Translate stakeholder ambition and needs into a strategic plan to achieve an entity's mandate
- Employ the public policy development process effectively to achieve the strategic plan
- Design and manage strategic initiatives and cross-entity collaboration mechanisms to effectively execute strategies
- Utilize a practical performance management system to develop and sustain a performance culture

Target Audience

All managers and professionals who are involved in influencing, formulating or supporting the planning and strategy of their government or semi-government entity, department or corporation. The course is also beneficial to those who are responsible for linking, measuring and improving the performance of the organization, including sector and department managers, strategy or performance management professionals, balanced scorecard managers, and research analysts.

Target Competencies:

- Policymaking
- Leadership skills
- Critical thinking
- Public sector competitiveness skills
- Strategic thinking and planning

- Service innovation
- Performance management
- Partnerships development

Outlines

Day 1

Ambition and role of the public sector
