Training Course: Quality Assured Administration Management

Training Course code: MA9320 From: 26 - 30 May 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5500 € Euro

Introduction

Providing Skills for Improving the effectiveness of the Administration Department is the primary focus of the program.

Increasingly there is a need for the non-production departments to improve the quality of their services to internal users. The last 25 years have seen dramatic changes in the Operational Philosophy, Customer Focus, IT Tools, Standardized Management Methodologies and Knowledge Management. This program provides the participant skills for Applying and Managing the Implementation of these in his organization.

Course Objectives:

- Relevant Knowhow and Technology Transfer to the Participants.
- Multi-discipline understanding, skills, competencies and step-by-step analytic understanding of the program topics and issues this understanding would otherwise have come from years of rich and diverse work experience.
- Knowledge Framework which will enable the participant to catch and learn from his own past/present/future job-related experience.
- Training that empowers the participant to identify, support and implement improvements in his work area, team, section, department or organization.

Target Audience:

This program is intended for all relevant Professionals, Consultants, and Managers. Participants attending the program take away a good multi-discipline understanding of the relevant issues. This training program helps the participant become productive quickly and helps build a related Knowledge Framework that will help him identify, understand, classify and remember the relevant on the job learning and experiences.

This program can be used to train relevant Strategy and Improvement Implementation teams.

- QA staff
- Admin staff
- Operational professionals
- Customer service associates
- Individuals looking to enter a career in Quality Assurance

- Executives who want to upgrade their QA skills
