## Training Course: Process Safety Management Compliance

Training Course code: HE7029 From: 3 - 7 August 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3875 € Euro

### Introduction

Most process organizations use HSE Management Systems to manage health, safety, and environmental risks. This program highlights the benefits of these systems and their key elements based on industry best practices. It focuses on risk management, compliance, and promoting a positive safety culture. Delegates will learn their roles in the HSE-MS, enhance knowledge of its elements, develop risk assessment and incident investigation skills, and create plans to foster safety culture.

### Objectives

- Describe the company's HSE Management Systems
- How to demonstrate compliance with elements, sub-elements, and expectations of the HSE- MS
- Understand the role of risk management in terms of risk assessment and incident investigation and analysis
- Appreciate the role of human error in risk assessment and contribution to incidents
- To identify weaknesses in the HSE- MS through analysis of root-causes for incidents
- Be familiar with the requirements of HSG65, BS 8800, OHSAS 18000, ISO 9000 and ISO 14000
- Be able to prepare action plans, setting targets and measuring performance
- Appreciate the value of promoting positive safety culture within your organization

### Methodology

Participants will learn by active participation during the programme through the use of exercises, questionnaire, syndicate and group discussion, training DVDs and discussions on "real life" issues in their organizations.

### Summary

The program aims to assist delegates in demonstrating compliance with the Company's HSE Management System. HSE- MS is detailed in terms of elements, sub-elements and expectations, based on best industry practice. Special focus will be placed on pro-active and reactive risk management element.
