## Conference: Contract Risk Management & Compliance

Conference code: CO8255 From: 10 - 14 November 2025 Venue: Madrid (Spain) - Pestana CR7 Gran Vía Conference  
Fees: 6000 € Euro

### Introduction

This seminar focuses on managing and mitigating risks in contracting to ensure successful project outcomes. Participants will gain insights into the risk mitigation process, strategies to elevate contracts to a strategic level, and skills to identify and allocate risks effectively. The course also provides examples of contract terms and conditions designed to address risk management comprehensively.

### Objectives

- Provide an understanding of how risk arises
- Compare different methods of identifying and assessing risk
- Review the impacts of different approaches to risk allocation
- Explore different Contract types to transfer risks
- Consider the contractual techniques to ensure effective risk allocation
- Review risk management techniques during the life of a contract

### Methodology

- Participants will increase competencies through a variety of instructional methods including a lecture by an experienced practitioner and consultant, cases/exercises, reviewing published articles, checklists, and group discussions covering current practices and their relationship to the implementation of new concepts.
- Delegates are encouraged to bring real problem examples with them, for discussion on a confidential basis, and to share their experience of particular issues in their company or industry. Time will be allowed for general discussions, and for one-to-one discussion with the trainer.

### Organizational Impact

- Expanding the expertise of personnel involved in contract development and management will allow project and general management teams to be more effective.
- The total cost of ownership will be understood and reduced by properly identifying and managing the risks.
- Clear allocation of risk will reduce the possibility of disputes, and any that do arise should be settled more quickly, with less cost, delay, and disruption.

- Reducing project failure, costly changes, and cost overruns resulting from poor understanding and management of risk.
- Implementing better risk management which improves the chance of project success.
- Developing an appreciation of the true effect of contractual indemnities which will enable better decision-making as to contract structures and ensure that risk is passed to others properly and in a cost-effective manner.

## Personal Impact

- Increased understanding of risk
- Better ability to allocate risk, and to select the appropriate contractual regime to achieve your aim
- Develop risk identification and assessment skills
- Heighten understanding of the alternative methods of allocating risk
- Improve understanding of different approaches to managing risk during a contract
- Improve the ability to reduce the negative impact of poorly-managed risk on a project or a company
