Training Course: Business Planning □ Development and Analysis Program

Training Course code: SC235109 From: 17 - 21 November 2025 Venue: London (UK) - Landmark Office Space
- Oxford Street Training Course Fees: 6000 □ Euro

Introduction:

In this comprehensive five-day training program, participants will learn the essential skills and techniques required to develop effective business plans and perform in-depth analysis for strategic decision-making. The training will combine theoretical knowledge with practical exercises to ensure participants gain hands-on experience in crafting business plans and evaluating business opportunities.

Objectives:

By the end of this training program, participants will be able to:

- Understand the importance of business planning and analysis in organizational success.
- Develop a well-structured and comprehensive business plan.
- Conduct market research and industry analysis to identify opportunities and threats.
- Apply financial analysis techniques to evaluate the financial feasibility of business ventures.
- Analyze the competitive landscape and position their business for success.
- Create implementation strategies and action plans to achieve business goals.
- Present business plans professionally to stakeholders.

Target Audience:

This training program is suitable for:

- Entrepreneurs and startup founders seeking to develop strong business plans for their ventures.
- Business managers and executives involved in strategic decision-making.
- Professionals from various industries interested in expanding their understanding of business planning and analysis.

Outlines:

Day 1:

Understanding the Fundamentals of Business Planning

- Introduction to business planning: Importance, benefits, and key components.
- Identifying business goals and objectives.
- Analyzing the business environment: SWOT analysis.
- Understanding the target market: Conducting market research.

Day 2:

Crafting a Comprehensive Business Plan

- Defining the company's mission and vision.
- Creating a compelling value proposition.
- Developing a business model canvas.
- Formulating marketing and sales strategies.
- Constructing the operations and management plan.

Day 3:

Financial Analysis and Feasibility Assessment

- Understanding financial statements: Balance sheets, income statements, and cash flow.
- Evaluating financial ratios for performance assessment.
- Estimating start-up costs and financial projections.
- Assessing business feasibility and risk analysis.

Day 4:

Analyzing the Competitive Landscape

- Identifying key competitors and their strengths and weaknesses.
- Conducting a competitive analysis using Porter's Five Forces model.
- Differentiation strategies and competitive positioning.
- Creating a marketing and sales strategy based on the competitive analysis.

Day 5:

Implementation and Presenting the Business Plan

- Developing implementation strategies and action plans.
- Setting key performance indicators KPIs and monitoring progress.
- Presenting the business plan to stakeholders effectively.
- Addressing questions and feedback from investors and other stakeholders.
