Training Course: Advanced Environmental Aspects and Impacts: A Comprehensive Guide

Training Course code: HE7038 From: 13 - 17 July 2025 Venue: Amman (Jordan) - Chemisty Training Course Fees: 3875 € Euro

Introduction:

Environmental aspects and their impacts play a crucial role in sustainable development and environmental management systems. Organizations worldwide are increasingly held accountable for their ecological footprint, making it essential to identify, assess, and manage environmental aspects effectively. This program offers a detailed exploration of environmental aspects and impacts, equipping participants with the tools and knowledge needed to implement robust management strategies aligned with international standards like ISO 14001.

Through interactive sessions, case studies, and practical exercises, this training provides a comprehensive understanding of how to minimize adverse environmental impacts while enhancing sustainability and compliance.

Target Audience:

- Environmental Managers and Specialists
- HSE Professionals
- Sustainability and Compliance Officers
- Industrial and Operations Managers
- Quality Assurance and Risk Management Teams

Objectives:

By the end of this program, participants will:

1. Understand the concepts of environmental aspects and impacts.
2. Identify and analyze environmental aspects in various organizational contexts.
3. Develop strategies for minimizing negative impacts and enhancing positive contributions.
4. Gain practical knowledge of impact assessment tools and methodologies.
5. Align organizational practices with global environmental standards and regulations.
