Training Course: Budgeting & Cost Control

Training Course code: FI2034 From: 30 June - 4 July 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5500 € Euro

Introduction

All business decision-making involves analyzing situations containing varying degrees of risk. This program uncovers the essential skills required to understand the processes of budgeting and cost control for better decision-making. From understanding the importance of a well-defined budget process through to the importance of how costs behave so that realistic cost-cutting and budgeting plans can be produced. In this program you will learn how to:

- Identify the principal factors required to produce a successful business case
- Develop budgeting and financial skills required for better decision-making
- Identify sources of financial and business data to support the budgeting process
- Learn new techniques and methodologies to simulate typical business scenarios

Objectives

- Understand the importance of a well-defined budget process
- Learn costing and budgeting terminology used in business
- Master techniques for cost-benefit analysis
- Learn how to construct profit, cash, and balance sheet plans and budgets
- Learn how to evaluate variances from plan and identify corrective actions
- Understand discounted cash flow DCF techniques and their application to financial decision making
- Build and use budgets relevant to your organization

Methodology

You will learn by active participation during the program through the use of exercises, case studies, practical workshops, syndicate, and group discussions.
