Training Course: EmpowerED: End User Cybersecurity Awareness Program

Training Course code: IT235386 From: 7 - 11 April 2025 Venue: Trabzon (Turkey) - Training Course Fees: 6000 € Euro

Introduction

In today's interconnected digital world, cybersecurity awareness is more critical than ever. Cyber threats continue to evolve, targeting individuals and organizations alike, making it essential for end users to be equipped with the knowledge and skills to protect themselves and their data online. The EmpowerED: End User Cybersecurity Awareness Program is designed to empower participants with the necessary tools and insights to navigate the digital landscape securely.

Objectives

- **Build Foundation Knowledge:** Introduce participants to fundamental cybersecurity concepts, terminology, and the evolving threat landscape.
- **Enhance Security Awareness:** Educate participants on best practices for protecting personal information, devices, and data from cyber threats.
- **Recognize and Mitigate Risks:** Train participants to identify and respond effectively to common cyber threats such as phishing, social engineering, and malware.
- **Promote Secure Behavior:** Encourage participants to adopt secure habits and behaviors in their day-to-day online activities.
- **Foster a Culture of Cybersecurity:** Empower participants to become proactive contributors to a cybersecurity-conscious workplace culture.

Target Audience

The EmpowerED: End User Cybersecurity Awareness Program is tailored for individuals across all levels of an organization who interact with digital devices and data in their daily work and personal lives. This includes but is not limited to:

- Employees from various departments HR, Finance, Marketing, IT, etc..
- Executives and managers responsible for overseeing cybersecurity initiatives.
- Remote workers and telecommuters.
- Individuals interested in enhancing their cybersecurity knowledge and skills for personal development.
