## Training Course: Safety officer -HSE Management

Training Course code: HE21326 From: 18 - 22 May 2025 Venue: Amman (Jordan) - Chemisty Training Course Fees: 3875  
€ Euro

### Introduction

This course prepares any individual wanting to pursue or shift to another career in EHS in the field of manufacturing, construction, oil & gas, petrochemicals, logistics, airline industry etc.

The course gives a general overview of what do Safety Officers do in their chosen field of work. Also, this course is a very good backbone for those wanting to take Safety Professional Certifications like OSHA, IOSH, and NEBOSH.

### Objectives

- To understand the roles and responsibilities of the employee-employer that each must perform to achieve safe, quality and efficient operation.
- To coordinate activities of contractors, sub-contractors, visitors and clients working in any given organization.
- To be able to identify hazards and mitigate or suggest solutions for risk management to lessen if not to totally eliminate or prevent incidents and accidents.

### Target Audience

- HR and Training Safety HRT
- Emergency Response Team Safety ERT
- Fire Engineering/Fire Safety
- Field Safety
- Logistics Safety
- Avionics and Airline safety

### Outline

- How to be a safety officer/what is/who is a safety officer
- Making a workplace risk assessment and environmental impact mitigation
- Making job-hazard analysis

- Preparing legal documentation
