## Conference: Process Plant Start-up, Troubleshooting & Commissioning

Conference code: CO8227 From: 14 - 18 July 2025 Venue: Kuala Lumpur (Malaysia) - Royale Chulan Kuala Lumpur  
Conference Fees: 6000 € Euro

### Introduction

There is an alarming trend in the industry to discount the potential contribution of the Technical/Operations function to productivity improvement, product quality, and gains in market share. Principles taught in this training session will help you to understand the true nature and different techniques of problem-solving and problem prevention in the operational/process environment.

Excellent Troubleshooting skills are considered a core competency for 'Best-in-Class' industrial companies. If your company's goals include minimizing downtime then this workshop is a must because it delivers rapid, safe Troubleshooting.

### Objectives

- How to become a 'Top Gun' Troubleshooter by acquiring new skills
- To develop a structured approach to Troubleshooting and Problem Solving which uses common terminology and shared understanding
- To point the way to Continuous Improvement in the way you run your processes and make incremental efficiency gains
- To understand the difference between having techniques manual on the bookshelf - and making it work
- To identify the "motivated" people who should be the champions of Troubleshooting and Problem Solving - and who should just follow
- To understand work practices that "allow" success in Troubleshooting and Problem Solving by reducing the variability of your process

### Methodology

The conference will be conducted in a facilitative style with a combination of lecture and practical exercises in the use of techniques, case studies, and a high level of lively debate and sharing of ideas. Delegates will be encouraged to introduce conferences of their own for discussion and analysis. Copies of all lecture materials, case studies, and workbooks will be provided.
