Training Course: Applied Economic Policy Analysis

Training Course code: FI6089 From: 7 - 11 April 2025 Venue: Casablanca (Morocco) - New Hotel Training Course Fees: 4500 € Euro

Introduction

Economic policies shape the structure and growth of national and global economies. This training program on Applied Economic Policy Analysis aims to provide participants with practical skills and theoretical knowledge to analyze, design, and evaluate economic policies effectively. Through real-world case studies and advanced analytical tools, participants will gain insights into the economic policy-making process and its impacts on diverse sectors.

Target Audience

- Economists and policy analysts.
- Professionals in government agencies and think tanks.
- Academic researchers and students in economics and public policy.
- Business leaders and financial professionals interested in policy impacts.
- International development practitioners and consultants.

Objectives

By the end of the program, participants will:

1. Understand the theoretical foundations of economic policy analysis.
2. Use quantitative methods and models to analyze economic policies.
3. Evaluate the economic and social impacts of policy decisions.
4. Design policy solutions for real-world economic challenges.
5. Enhance decision-making skills for economic policy formulation.

Outlines

Day 1:

Foundations of Economic Policy Analysis

- Key Topics:

- Overview of Economic Policies: Fiscal, Monetary, and Trade Policies.
