Training Course: The Complete SQL Bootcamp 2022: Go from Zero to Hero

Training Course code: IT234876 From: 30 March - 3 April 2025 Venue: Amman (Jordan) - Chemisty Training Course Fees: 3875 € Euro

Introduction

This is a course that puts you in control, and have you set up and restore databases right at the start of the course, instead of watching someone else code. Every section comes with fresh challenge questions and tasks, modeled after real-world tasks and situations.

The Complete SQL Bootcamp 2022: Go from Zero to Hero will allow participants how to read and write complex queries to a database using one of the most in-demand skills - PostgreSQL. These skills are also applicable to any other major SQL database, such as MySQL, Microsoft SQL Server, Amazon Redshift, Oracle, and much more.

Learning SQL is one of the fastest ways to improve your career prospects as it is one of the most in-demand tech skills! In this course, you'll learn quickly and receive challenges and tests along the way to improve your understanding!

Training Objectives

At the end of this training program, participants will learn:

- Get started with PostgreSQL and PgAdmin.
