Training Course: Finance, Risk Management & Corporate Governance

Training Course code: FI2029 From: 7 - 11 September 2025 Venue: Manama (Bahrain) - Fraser Suites Training Course
Fees: 4500 € Euro

Introduction

This course offers insights into the world of corporate finance, risk, and governance. Capital markets are central to the globalization phenomenon and essential for a well-functioning society. Because of this centrality and essential nature to societies, focus and attention must be paid to their proper functioning and oversight. To that end, this course offers an overview of the interaction between management and all other stakeholders. Diverse and complex stakeholder demands are best met by an efficient allocation of resources over an extended period of time.

By combining techniques analysis, problems and examples with a real case study the course provides delegates with key finance terminology and practice. This course not only presents the key financial tools generally used but also explains the broader context of how and where they are applied to obtain meaningful answers. It provides a conceptual backdrop both for the financial/economic dimensions of strategic business management and for understanding the nature of financial statements, analyzing data, planning and controlling.

The course is targeted at providing a university-quality "MBA" overview of finance, risk management, and corporate governance. Participants are expected to be high-potential learners seeking the next level of learning. Additional bibliographies, readings, and spreadsheets will be provided as takeaways.

Objectives

This course will help you learn how to:

- Specify the exact nature and scope of corporate financial reporting
- Identify and criticize specific concepts, rules, and procedures are in place for corporate financial reporting
- How & why Working Capital is critical in today's world
- What Working Capital options must be managed & how to do so
- How & why Capital Structure can make or break a firm
- What decisions must be made to properly decide on optimal Capital Structure
- How & why Capital Budgeting can go so wrong if not performed properly
- Capital Budgeting should usually add value to the firm
