Training Course: Contract Cost and Price Analysis

Training Course code: PC4090 From: 24 - 28 March 2025 Venue: Amsterdam (Netherlands) - Grand Hotel Amrâth
Amsterdam Training Course Fees: 5500 € Euro

Introduction

Obtaining fair and reasonable pricing from contractors and suppliers is a primary objective for all businesses and governments. Evaluating prices through Cost and Price analysis are essential skill sets in meeting these objectives. Those involved in these activities understand well the significant challenges in this ever-changing business environment and also that there exist significant opportunities for improvement by providing best practice competencies to all those involved in contract and procurement activities. Attending this program will provide insight into:

- Managing Cost and Prices in Volatile Market Conditions
- Obtaining Better Pricing for the Original Contracts and Changes
- Understanding the Methods Contractors use for Pricing
- Understanding the Elements of Price that Make up the Price

Course Objectives

- The Importance Of Price/Cost Analysis In Continuous Improvement Programmes
- The Difference Between Price And Cost Analysis
- Criteria For Selecting The Analysis Type
- Methods Of Price Analysis
- Knowledge of Supplier Strategic Alliances
- Analytical Tools for Cost Drivers
- Methods Of Cost Analysis
- Development Of "Should Cost"
- Types Of TCO Models

Training methodology

- Participants will increase competencies through a variety of instructional methods including a lecture by an experienced practitioner and consultant, cases/exercises, reviewing published articles, checklists, and

group discussions covering current practices and their relationship to the implementation of best practices.

- Delegates are encouraged to bring real problem examples with them, for discussion on a confidential basis, and to share their experience of particular issues in their company or industry. Time will be allowed for general discussions, and for one-to-one discussion with the consultant.

Course Summary

This program provides both strategic and practical insights into the concepts of Contract Cost/Price/Value Analysis and Total Cost of Ownership that are essential skill sets in developing and implementing the strategies required for continuous improvement.
