Training Course: Risk & Human Factor

Training Course code: SC235377 From: 18 - 29 May 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 6000 € Euro

Introduction:

Welcome to the "Risk & Human Factor Mastery" training program, where we embark on a transformative journey into the intricate dynamics between risk management and human behavior. In today's dynamic business landscape, understanding how human factors influence risk outcomes is paramount for organizational resilience and success. This extended program offers a comprehensive exploration of these crucial interconnections, equipping participants with the knowledge and strategies needed to navigate complex risk scenarios with confidence and agility.

Objectives:

1. Gain a deep understanding of the multifaceted relationship between risk management principles and human behavior dynamics.
2. Identify and analyze the diverse human factors that contribute to organizational risks across various industries and contexts.
3. Develop practical strategies and interventions to effectively mitigate risks associated with human behavior, enhancing overall risk resilience.
4. Cultivate a culture of proactive risk awareness, accountability, and continuous improvement within organizational structures.
5. Empower participants to integrate human factors seamlessly into existing risk management frameworks, fostering more robust decision-making processes.

Target Audience:

This training program is meticulously designed to cater to professionals across diverse industries who are vested in optimizing risk management processes and fostering a culture of safety, compliance, and organizational excellence. It is particularly beneficial for:

- Risk managers, analysts, and consultants seeking to enhance their understanding of human behavior's impact on risk dynamics.
- Human resource professionals dedicated to fostering employee engagement, well-being, and performance within risk-sensitive environments.
- Project managers striving to mitigate project-related risks through comprehensive human factor considerations and interventions.
- Safety and compliance officers tasked with identifying and addressing human-related risks to ensure

organizational resilience and regulatory compliance.

- Organizational leaders, decision-makers, and executives committed to driving a culture of risk-awareness, innovation, and sustainable growth across their teams and departments.

Outlines:

Day 1:

Introduction to Risk Management and Human Factors

- Overview of risk management principles and methodologies.
- Understanding human factors and their impact on organizational risk.
- Case studies and real-life examples highlighting the importance of addressing human factors in risk management.
