Training Course: Dynamics of Leadership

Training Course code: LS1113 From: 17 - 21 March 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 5500 € Euro

Introduction

This seminar will help you define and implement the vision you have for yourself, your team, and your organization. Working from an initial understanding of your own capabilities, motivators, and resources, it will build an action plan for moving you and those around you towards a shared perception of the future, able to respond to an ever-changing world.

Highlights include:

- Understanding the leader's dynamic context
- Self-awareness and self-belief as drivers of leadership behaviors
- Adopting the appropriate "altitude" as a leader
- Developing a robust and engaging vision
- Building key alliances inside and outside the team
- Maximizing returns on investment in the team

Objectives

- Examine your personal style and drivers of behavior;
- Analyze the interpersonal forces at work in your team and organization;
- Develop a vision for realizing your personal and organizational goals;
- Inspire your team with a dynamic and aligned statement of purpose;
- Identify and develop key partners in achieving your shared vision;
- Link personal, team, and organizational goals for sustainable performance.

Methodology

The program will combine presentations with facilitated discussions, interactive practical exercises, small-group activities, and mini-case studies. A key element in this process is to learn from each other's ideas, so all contributions are valuable. A psychometric instrument will be used to generate a personality profile, which will contribute to your understanding of your preferences and personal style.

Organizational Impact

Leaders at all levels who can respond effectively to change are better able to adapt to the dynamic and unpredictable context all organizations face over the longer term. Organizational performance depends on the ability of managers to stand back from their everyday pressures and scan the bigger picture while retaining the confidence and trust of their team and colleagues; this seminar will help them do this.

Personal Impact

Participants will be exposed to a range of perspectives on the leadership function, sharing examples of best practice, and challenging some assumptions about the role of the manager. The seminar will ask you to examine your beliefs about yourself and the contribution you can make to your organization over the longer term, and develop an action plan to make your vision a reality.
