INTRODUCTION

Project Management is essential in business today as it's all about getting activities completed efficiently and effectively by and with the support of people. To understand Project Management, it's important to have theoretical as well as functional knowledge of project management, leadership, and teamwork.

The Project Management Professional PMP is already recognized as the world's leading project management certification. Now updated the PMP focuses on the people aspect too, project leadership experience and expertise as well as team behaviors as the winning way towards success with the right people needed to work smarter and perform better.

This training course is intended for candidates who plan to undertake the Project Management Institute PMI Project Management Professional PMP examination based on the 6th edition of the Project Management Body of Knowledge PMBoK.

Projects are the way of modern business, with research indicating employers will require almost 2.2 million new project-oriented roles each year through 2027 meaning skilled project managers are in high demand.

The PMP certification is designed by project professionals, for project professionals and validates that you are among the best highly skilled in:

- People: emphasizing soft skills needed to effectively lead a project team in today's changing
- Process: reinforces technical aspects of successfully managing
- Business Environment: highlights connections between projects and strategies of the organizations

PMP certification endorses your capabilities around the project leadership skills employers seek, and indeed now includes three key approaches:

- Predictive waterfall
