## Training Course: Environmental Management Certificate

Training Course code: HE7013 From: 2 - 6 February 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3875 € Euro

### Introduction

Sustainable business practices require prioritizing environmental and societal safety. Increasing societal and legislative pressures demand environmentally friendly production processes. This CIEH-certified course provides managers with essential environmental management qualifications. Participants will learn about environmental legislation, management techniques, waste minimization, pollution prevention, emergency response, and planning effective environmental management programs, linking environmental protection to production efficiency.

### Objectives

- To understand the business benefits of sound environmental management
- To appreciate the environmental management systems
- To know how legislation and international conventions affect businesses
- Become knowledgeable of environmental terms
- Understand the process of waste minimization

### Process

This is an intensive five-day seminar. It is an active program that requires group exercises and discussions with a mixture of speaker input to facilitated discussions and an emphasis on delegate involvement at all times. Optional but necessary to gain certification by CIEH is the passing of an exam on the 6th day.

### Benefits

- An Internationally recognized certificate
- Confidence in dealing with environmental issues
- Knowledge in Environmental Management systems
- Sound understanding of environmental effects from production processes
- Appreciation of integrating Environment issues within the management systems

### Results

- Environmental conscious employees will reduce costs

- Employees will understand how environmental consequences can be reduced of the surety that the company will follow best environmental practices
- The employees will realize the legal implications of poor environmental management
- The employees will be able to cascade the knowledge gained and increase their ability to respond flexibly to changing circumstances
