

*Training Course:
Certified Supply Chain Professional*

5 - 9 October 2025

Cairo (Egypt)

Holiday Inn & Suites Cairo Maadi, an IHG Hotel

Training Course: Certified Supply Chain Professional

Training Course code: SC235676 From: 5 - 9 October 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3875 € Euro

Introduction

The supply chain is the lifeline of any organization, ensuring that products and services move efficiently from suppliers to customers. With globalization and digital transformation reshaping industries, supply chain management has evolved into a critical, strategic function that drives competitive advantage and business success. Organizations now seek professionals who can navigate complex networks, anticipate disruptions, and implement innovative solutions to optimize supply chain performance.

The **Certified Supply Chain Professional** training program is designed to provide participants with a comprehensive understanding of supply chain principles, strategies, and best practices. This program explores every link in the supply chain, from procurement and production to distribution and customer service, emphasizing the integration and coordination of these elements to achieve maximum efficiency and responsiveness.

Through interactive sessions, case studies, and real-world applications, participants will learn to analyze and improve supply chain processes, adopt cutting-edge technologies, and implement sustainable practices. Whether you are a newcomer to the field or a seasoned professional seeking to enhance your expertise, this program equips you with the tools and insights necessary to excel in the dynamic world of supply chain management.

By the end of this training, participants will be able to align supply chain strategies with organizational goals, mitigate risks, and contribute to creating resilient, value-driven supply chains that deliver tangible business results.

Target Audience

This program is ideal for:

- Supply chain managers and planners
- Procurement and logistics professionals
- Operations and inventory managers
- Warehouse supervisors and distribution personnel
- Professionals aspiring to advance in supply chain management

Objectives

By the end of this program, participants will:

1. Gain a comprehensive understanding of supply chain management concepts and principles.
2. Develop strategies for effective procurement, production, and inventory management.

3. Learn techniques to optimize logistics and distribution processes.
4. Explore tools for data-driven decision-making and performance measurement.
5. Understand emerging trends and technologies shaping supply chain operations.
