## Training Course: Advanced Process HAZOP

Training Course code: LS32456 From: 26 - 30 January 2025 Venue: Amman (Jordan) - Chemistry Training Course Fees: 3550 € Euro

### Introduction

It is universally recognised that for any company to succeed it must take a proactive approach to risk management. Over the last few years Companies and a number of Countries legislators have been focusing on Process Safety as a method to reduce the risks posed by hazardous industries. Process Hazard Analysis PHA is recognised as being a critical tool in the implementation of a successful risk management system.

As Hazard and Operability HAZOP studies are now recognised world-wide as being the qualitative risk assessment methodology of choice in the Process Industries, there will be additional focus on this specific aspect of Process Hazard Analysis.

The delegates will learn:

- How to Apply Advanced Risk Assessment Techniques
