Training Course: Market Research and Intelligence

Training Course code: SM235649 From: 22 December 2025 - 2 January 2026 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 9000 € Euro

Introduction

The Market Research and Intelligence training program, designed by Global Horizon Training Center, is aimed at equipping participants with the comprehensive knowledge required to understand and apply market research principles and intelligence for strategic decision-making. The course covers a wide range of theoretical concepts and analytical tools necessary for effective market analysis and insight generation.

Objectives

By the end of this training, participants will be able to:

- Understand the foundational principles and importance of market research and intelligence.
- Identify and utilize various qualitative and quantitative research methodologies.
- Interpret market data to support business strategies.
- Analyze consumer behavior and market trends.
- Leverage market intelligence for competitive analysis.
- Integrate findings into strategic planning and decision-making processes.

Course Methodology

This program follows a lecture-based and discussion-focused format:

- Expert-led presentations to provide in-depth knowledge.
- Case study discussions to demonstrate applications of key concepts.
- Structured Q&A sessions to clarify and reinforce learning.

Organizational Impact

Upon completion of this training, organizations can expect:

- Enhanced ability to make informed, data-driven business decisions.
- Stronger market positioning through improved understanding of consumer and competitor behavior.

- Increased capacity to anticipate and adapt to market changes.
- More efficient and insightful use of research for strategic planning.

Target Audience

This training program is suitable for:

- Market researchers and analysts.
- Marketing managers and strategists.
- Business development professionals.
- Entrepreneurs and startup founders.
- Corporate strategy teams.
- Professionals involved in business planning and market assessments.
