Training Course: Certified Product Manager

Training Course code: SC1932 From: 1 - 5 September 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 € Euro

Introduction

Product management is a critical discipline that bridges the gap between business strategy, technology, and customer needs. This **Certified Product Manager** training program is designed to equip participants with the essential knowledge, tools, and methodologies to excel in product management roles. Participants will learn to drive product innovation, manage product lifecycles, and align product strategies with organizational goals.

Target Audience

- Aspiring and existing product managers.
- Project managers transitioning to product roles.
- Marketing and business professionals involved in product development.
- Entrepreneurs and startup founders managing their own products.
- Technology professionals interested in product management principles.

Objectives

By the end of the program, participants will:

1. Understand the core responsibilities of a product manager.
2. Learn how to develop and manage a product roadmap.
3. Master techniques for market research, user-centric design, and product development.
4. Gain skills in stakeholder management and cross-functional team collaboration.
5. Be prepared for certification as a Product Manager.

Outlines

Day 1:

Introduction to Product Management

- Key Topics:

- What is Product Management? Roles and Responsibilities.
 - Product Lifecycle Management: From Ideation to Sunsetting.
 - Aligning Product Strategy with Business Goals.
