

*Training Course:
ISO 22301 Lead Implementer of Business
Continuity*

12 - 16 October 2025

Dubai (UAE)

Residence Inn by Marriott Sheikh Zayed Road, Dubai

Training Course: ISO 22301 Lead Implementer of Business Continuity

Training Course code: SC235537 From: 12 - 16 October 2025 Venue: Dubai (UAE) - Residence Inn by Marriott Sheikh Zayed Road, Dubai Training Course Fees: 4900 € Euro

Introduction:

In today's rapidly changing and often uncertain global environment, organizations face numerous risks that can disrupt their operations. The ability to ensure business continuity in the face of these challenges is essential for maintaining competitiveness, regulatory compliance, and stakeholder trust. The ISO 22301 standard provides a framework for implementing, maintaining, and improving a business continuity management system BCMS to minimize disruption and ensure the resilience of critical business functions.

This course, ISO 22301 Lead Implementer of Business Continuity, equips participants with the knowledge and skills necessary to lead the implementation of an effective BCMS within an organization. It covers the principles, strategies, and techniques for aligning business continuity practices with the ISO 22301 standard, ensuring preparedness in case of emergencies. Through a combination of theoretical learning and practical exercises, participants will be able to develop, implement, and continuously improve a robust BCMS, meeting the highest international standards.

Target Audience:

- Business continuity managers and consultants
- Risk managers and consultants
- Project managers and individuals responsible for ensuring business continuity
- Professionals involved in business continuity, disaster recovery, and information security
- ISO professionals who want to gain expertise in implementing ISO 22301 standards
- Senior managers and executives responsible for organizational resilience

Objectives:

By the end of this program, participants will be able to:

1. Understand the principles and guidelines of ISO 22301 for Business Continuity Management.
2. Lead the planning, implementation, and management of a Business Continuity Management System BCMS based on ISO 22301.
3. Conduct risk assessments, business impact analyses BIA, and develop continuity strategies.
4. Implement, monitor, and maintain effective business continuity measures across the organization.

5. Ensure continual improvement of the BCMS through regular review and testing.

Outlines:

Day 1:
