Training Course: Financial Analysis Management

Training Course code: FI234802 From: 13 - 17 October 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 5500 € Euro

Introduction

In the globally competitive world of 21st-century business, decision-makers face unprecedented levels of risk and uncertainty - to survive and flourish in this challenging environment organizations need the right tools with which to analyze problems and anticipate and manage the many opportunities and threats that may emerge.

Traditional forms of financial analysis and forecasting no longer meet these needs and the most progressive firms are using the power of financial models to help them analyze challenges and take a more powerful approach to manage risk in their planning and forecasting.

Financial management is the planning, organizing, directing, and controlling of an organization's financial activities such as procurement and the utilization of funds. The purpose of this course is to provide participants with the fundamental financial knowledge and skills to enable them to participate in business activities such as financial planning, and financial control and to make savvy financial and investment decisions.

Target Audience

- Finance Professionals
- Budgeting and Planning Managers
- Commercial Managers
- Divisional Managers
- Purchasing and Supply Chain Managers
- Project Managers
- Chief Financial Officers and Financial Controllers
- Treasury Team Members
