Training Course: Driving Performance: Leadership for Maintenance Managers

Training Course code: LS235495 From: 27 January - 7 February 2025 Venue: Amsterdam (Netherlands) - Grand Hotel Amrâth Amsterdam Training Course Fees: 9000 € Euro

Introduction

This advanced training program, designed by Global Horizon Training Center, is tailored for maintenance managers seeking to enhance their leadership skills and drive performance within their teams. As maintenance operations become increasingly complex, effective leadership is crucial to ensuring that teams are motivated, aligned with organizational goals, and capable of delivering exceptional results. This program provides the tools, strategies, and insights necessary to lead maintenance teams with confidence and competence.

Objectives

By the end of this program, participants will be able to:

- Develop and implement leadership strategies that enhance team performance and productivity.
- Understand the key principles of leadership in a maintenance environment.
- Improve decision-making processes to optimize maintenance operations.
- Foster a culture of continuous improvement and proactive problem-solving.
- Effectively manage and lead diverse teams in high-pressure maintenance scenarios.
- Align maintenance objectives with overall organizational goals to maximize impact.
- Utilize advanced leadership techniques to navigate challenges and drive change within the maintenance department.

Methodology

The program employs a mix of theoretical and practical learning methods, including:

- Interactive Workshops: Participants will engage in discussions, case studies, and group activities to reinforce learning and application of concepts.
- Role-Playing Exercises: Real-life scenarios will be simulated to practice leadership and decision-making skills.
- Peer Learning: Collaborative learning sessions where participants share experiences and best practices.
- Expert Lectures: Insights from industry experts on the latest trends and challenges in maintenance leadership.

- Hands-On Projects: Participants will work on projects that relate directly to their work environment, allowing for immediate application of skills.

Organizational Impact

Organizations will benefit from this training program through:

- Enhanced leadership capabilities within the maintenance department, leading to more effective team management.
- Improved maintenance team performance, resulting in reduced downtime and increased operational efficiency.
- A stronger alignment between maintenance activities and broader organizational objectives.
- The development of a proactive maintenance culture focused on continuous improvement and innovation.
- Greater adaptability and resilience in the face of operational challenges.

Target Audience

This program is ideal for:

- Senior Maintenance Managers
- Maintenance Supervisors
- Engineering Managers
- Facilities Managers
- Operations Managers with a focus on maintenance
- Individuals aspiring to move into senior maintenance leadership roles
