

*Training Course:  
Hydrocarbon Production Operations MBA*

*2 - 6 November 2025*

*Cairo (Egypt)*

*Holiday Inn & Suites Cairo Maadi, an IHG Hotel*

## Training Course: Hydrocarbon Production Operations MBA

Training Course code: EN6022 From: 2 - 6 November 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4200 € Euro

### Introduction

This program will provide the participants with an integrated view of the hydrocarbon production and related facilities during the life of the reservoir. It will present an overview/fundamental understanding of the wide range of oilfield production handling and treatment equipment. With this view and tools and knowledge on the properties and flow of the fluids provided in this training session, the participant will be able to understand the behavior of the fluids from the reservoir up to end-users. The training gives a strong emphasis on the calculation of reserves, fluids properties from a reservoir through gathering networks. This knowledge is necessary for the surface facility engineer to design or operate the equipment and facilities.

### Objectives

- Familiarize the participants with global oil & gas related statistics, such as reserves, production, consumption, and exports
- Familiarize the participants with both upstream, middle stream and downstream operations and related facilities
- Familiarize the participants with various methods and techniques used to explore, drill, produce, treat and transport oil, gas and their products
- Understand the oil & gas operations of various field facilities from the wellhead, flow lines, separators, tanks, pumps and compressors, pipelines, gas treatment and processing, refinery operations, etc
- Understand the basic concept with regards to evaluating oil & gas reserves, artificial lift and enhancing recovery
- Understand the challenge associated with this industry such as offshore operations, horizontal drilling and other safety concerns
- Get a general feel for petroleum economics and risk analysis

### Methodology

The program will include a number of exercises aimed at enhancing each participant's capability to conduct various petroleum engineering problems. A number of short films will be presented during the training session to enhance the participants' knowledge about petroleum field operations.

Additionally, the program assumes no or limited prior knowledge of the topics covered in this training session. New concepts and tools are introduced gradually to enable delegates to progress from the fundamental to the advanced concepts of oil & gas operation processes.

# *The delegates will gain*

include the production of gas and oil and surface processing units and operations such as artificial Lift and pressure maintenance operations. Issues related to mid-stream and down-stream will be discussed as well, including recent developments.

## Summary

This program will provide an insight into the oil & gas field operation processes and the role of production engineering. It will explain the important concepts in a reservoir and well drilling and intervention, productivity optimization, various recovery mechanisms, as well as covering various operational issues. Core Competencies are:

- Gain an overall knowledge of various hydrocarbon production processes from the time a reservoir is discovered to end-users
- Understand the role of the petroleum/reservoir engineer in optimizing recovery
- Gain sufficient knowledge of various surface and sub-surface pieces of equipment and processing facilities used in a typical oil & gas field
- Gain sufficient knowledge about health, safety, and environmental issues
- Understand the role of petroleum economics in evaluating field development projects

## Outlines

### DAY 1:

- Introduction and Overview
- Global Energy Statistics
- Hydrocarbon Industry Components
- The Upstream Operations
  - Exploration Methods
  - Seismic Surveys
  - Drilling Operation
  - Drilling Problems & Challenges
  - Well Testing, Completion
  - Hydrocarbon Production Problems
  - Well Stimulation & Maintenance

#### DAY 2:

- Hydrocarbon Properties
- Rock Properties
- Porosity & Permeability
- Estimating Hydrocarbon Reserves
- Oil & Gas Production
- Artificial Lift Methods & Facilities
- Reservoir Drive Mechanisms
- Pressure Maintenance Technology
- Hydrocarbon Recovery Methods
- Primary, Secondary & Tertiary Recovery
- Reservoir Simulation
- Oil & Gas Field Surface Facilities

#### DAY 3:

- The Downstream Operations
  - Wellheads Types
  - Production Manifolds
  - GOSP Facilities
  - Oil & Gas Separation
  - Emulsion Treatment
  - Separator types, Operation & Troubleshooting
  - Oil Treatment, Storage & Transportation
  - Oil Tank Types
  - Gas Treatment & Processing
  - Process Troubleshooting

**DAY 4:**

- Heat Exchangers
- Oil & Gas Measurement and Control
- Pipeline Operation & Pigging
- Valve Types
- Pumps & Compressor Stations
- Refinery Operations & Products
- Operation Troubleshooting

**DAY 5:**

- The Role of Technology
- Safety & Accident Prevention
- Production Problems
- Corrosion Protection & Cathodic Protection
- Scale Prevention & Treatment
- Petroleum Economics & Risk Analysis

## Registration form on the Training Course: Hydrocarbon Production Operations MBA

**Training Course code:** EN6022 **From:** 2 - 6 November 2025 **Venue:** Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel **Training Course Fees:** 4200 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....  
Position: .....  
Telephone / Mobile: .....  
Personal E-Mail: .....  
Official E-Mail: .....

### Company Information

Company Name: .....  
Address: .....  
City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....  
Position: .....  
Telephone / Mobile: .....  
Personal E-Mail: .....  
Official E-Mail: .....

### Payment Method

- ☐ Please find enclosed a cheque made payable to Global Horizon
- ☐ Please invoice me
- ☐ Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
