Training Course: Project Management From Design to Execution

Training Course code: MA235070 From: 11 - 22 August 2025 Venue: Cape Town (South Africa) - DoubleTree by Hilton Cape Town - Upper Eastside Training Course Fees: 9520 € Euro

Introduction

This training program Project management, developed by Global Horizon, is a crucial skill for any business or organization looking to achieve its goals effectively. From design to execution, project management involves a range of tasks and responsibilities, from defining project scope and objectives, allocating resources, and creating project plans, to managing project activities, monitoring progress, and ensuring project success. To help individuals develop their project management skills, we have developed a training program that covers all aspects of project management in-depth.

Methodologies

Our training program combines lectures, interactive exercises, and case studies to ensure that participants have a thorough understanding of project management concepts, tools, and techniques. We also incorporate real-world scenarios and examples to help participants apply their knowledge to their own projects.

Objectives

The primary objective of our training program is to equip participants with the skills and knowledge necessary to manage projects effectively from design to execution. By the end of the training, participants should be able to:

- Define project scope, goals, and objectives
- Create project plans, timelines, and schedules
- Allocate resources and define roles and responsibilities
- Monitor project progress and adjust plans as needed
- Manage project risks and issues
- Lead project teams effectively and motivate team members
- Implement Agile methodology in project management
- Close out projects successfully and document outcomes and lessons learned
- Identify and avoid common project management pitfalls

Target Audience

Our training program is designed for individuals who are responsible for managing projects in their organizations, including project managers, team leaders, and executives. It is also suitable for individuals who are interested in

developing their project management skills and seeking to advance their careers in project management. Participants may come from a wide range of industries and sectors, including business, government, healthcare, education, and nonprofit organizations. No prior experience in project management is required to participate in our training program.
