Training Course: The Essentials of Contracting

Training Course code: PC4004 From: 15 - 19 September 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 5500 £ Euro

Introduction

Every day significant monies are made and lost by organizations as a result of the contractual terms and conditions governing contracts for the purchase of goods, equipment, and services. Since all business activities are governed by contractual relationships, it is increasingly important for all those dealing with outside organizations to have an understanding of how to obtain the best possible agreement for their organization.

The course will look at how contracts are created, and some of the main clauses that appear in contracts, together with a number of alternative contracting strategies and structures. The course will then consider methods to be used in negotiating contracts, including techniques relating to negotiating on variations and claims. The course will deal with day to day commercial issues arising from business agreements written in the English language but will use techniques which have wide application to many types of contract in many countries.
