Training Course:
Developing Consultant Level Capability in Implementing ISO-14001

9 - 13 June 2025
Vienna (Austria)

Training Course:
Developing Consultant Level Capability in Implementing ISO-14001

Training Course code: MA9347 From: 9 - 13 June 2025 Venue: Vienna (Austria) - Training Course Fees: 5750 Euro

Introduction

Implementing ISO 14001:2015 requires dedicated resources and time. Most organizations are continually seeking out ways to reduce expenses and improve the bottom line. Successful implementation of an ISO 14001:2015 compliant Environmental Management System can enable your organization to identify risk relating to possible non-conformances and reduce or prevent costly environmental incidents. Consumers and other companies are more environmentally conscious than at any previous time in history. Organizations and consumers are more concerned about the environmental practices of the companies that supply their materials, parts or subassemblies. Establishing a robust and effective Environmental Management System is a powerful way to demonstrate your organization's commitment to managing your environmental impact. This can also enhance your image, increase your brand equity and potentially improve your market share.

Course Objectives:

This program is applicable to any organization that wishes to:

- implement, maintain and improve an environmental management system;

- assure itself of its conformance with its stated environmental policy;

- demonstrate such conformance to others;

- seek certification/registration of its environmental management system by an external organization;

- make a self-determination and self-declaration of conformance with this International Standard.
