## Training Course: Leading Safe

Training Course code: HE234695 From: 10 - 14 November 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 € Euro

### Introduction

Leading SAFe is a guide to aligning Agile development throughout an organization. Most organizations focus their Agile development efforts at the team level, first starting with a pilot team and later transitioning individual teams one at a time. Unfortunately, this method fails to fully integrate each team's efforts with the larger stakeholder need. The Scaled Agile Framework gives you proven techniques to align these teams to work at the larger program level, and ultimately to align multiple programs into a portfolio that maximizes shareholder value.

### Prerequisites

This SAFe Agilist certification course is beneficial to all members of an Agile team, but it is primarily oriented towards those leading the efforts to adopt and scale Lean and Agile principles and practices via the Scaled Agile Framework.
