Training Course: Facilities and Maintenance Management: Best Practices and Strategies

Training Course code: SC235789 From: 7 - 11 April 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 6000 € Euro

Introduction:

Facilities and maintenance management play a crucial role in ensuring the smooth operation of buildings, infrastructure, and equipment. This course provides participants with the latest strategies and best practices to enhance efficiency, reduce costs, and improve sustainability in facility management. The program covers key areas such as preventive maintenance, asset management, sustainability, compliance, and technology integration.

Target Audience:

- Facilities Managers
- Maintenance Engineers and Supervisors
- Operations and Asset Managers
- Property Managers
- Health and Safety Officers
- Professionals involved in infrastructure and maintenance planning

Objectives:

By the end of this course, participants will be able to:

1. Understand key principles of facilities and maintenance management.
2. Develop and implement preventive and predictive maintenance programs.
3. Optimize asset management and lifecycle strategies.
4. Improve cost efficiency and sustainability in maintenance operations.
5. Utilize technology and data-driven solutions for effective facilities management.
6. Ensure compliance with safety, environmental, and regulatory standards.

Outlines:

Day 1:

Fundamentals of Facilities and Maintenance Management

- The role of facilities and maintenance management in business operations
- Key concepts: asset lifecycle, preventive vs. corrective maintenance
