AI for Business: Transforming Operations,
Marketing, and Automation*

8 - 12 June 2025

Cairo (Egypt)

Holiday Inn & Suites Cairo Maadi, an IHG Hotel

Training Course: AI for Business: Transforming Operations, Marketing, and Automation

Training Course code: SC235796 From: 8 - 12 June 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3875 € Euro

Introduction

Artificial Intelligence AI is revolutionizing the way businesses operate, offering unparalleled opportunities to enhance efficiency, optimize decision-making, and create personalized customer experiences. This training program, designed by Global Horizon Training Center, equips professionals with the knowledge and skills needed to integrate AI into their business strategies. Participants will explore AI fundamentals, automation tools, ethical considerations, and practical AI applications relevant to marketing, operations, and customer engagement.

By the end of this program, attendees will be well-equipped to leverage AI-driven solutions to improve business efficiency and gain a competitive edge.

Objectives

By completing this training, participants will:

- Understand the core concepts of AI, machine learning, and data science in business applications.
- Learn how to implement AI-driven automation solutions to streamline workflows and increase productivity.
- Gain insights into ethical AI considerations, ensuring transparency and fairness in AI adoption.
- Explore practical AI applications in marketing, customer engagement, and business operations.
- Develop the skills to integrate AI into data-driven decision-making and predictive analytics.

Course Methodology

This training employs a practical, hands-on approach, combining:

- Interactive presentations to explain AI concepts and case studies.
- Live demonstrations of AI-powered business tools.
- Workshops and group discussions to encourage critical thinking.
- Real-world case studies from the oil marketing, retail, and corporate sectors.
- Hands-on exercises using AI applications for automation and analytics.

Organizational Impact

- Improved operational efficiency through AI-driven automation.
- Enhanced customer engagement with AI-powered personalization.
- Stronger data-driven decision-making for competitive advantage.
- Greater compliance with ethical AI practices and regulatory standards.
- Increased innovation and AI readiness within the organization.

Target Audience

This program is ideal for:

- Business Executives and Decision-Makers
- Marketing and Sales Professionals
- Operations and Supply Chain Managers
- IT and Digital Transformation Teams
- Customer Experience and Service Leaders
- Data Analysts and Business Intelligence Teams
