Training Course: Strategic On Scene Command for On-Shore Oil & Gas Operations

Training Course code: EN235862 From: 12 - 16 October 2025 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 6500 € Euro

Introduction

This training program is designed for professionals who are responsible for managing and leading emergency response operations on shore oil & gas facilities. It aims to enhance the capabilities of On Scene Commanders in dealing with a variety of emergency scenarios, including oil spills, fires, explosions, and security threats. The course provides a comprehensive approach to incident management, focusing on strategic decision-making, leadership, communication, and coordination skills.

Objectives

- Develop a thorough understanding of the roles and responsibilities of an On Scene Commander.
- Equip participants with the skills required to effectively manage emergency incidents on shore oil & gas facilities.
- Enhance the ability to implement incident command systems ICS in line with industry standards and best practices.
- Foster strategic thinking and decision-making under pressure.
- Improve communication and coordination skills during emergency operations.
- Understand health, safety, and environmental HSE considerations during incident management.
- Build competencies in conducting post-incident reviews and implementing corrective actions.

Target Audience

- On Scene Commanders
- Emergency Response Managers
- HSE Managers
- Security Supervisors
- Operations Managers

- Facility Managers
- Incident Response Coordinators

Training Program Outline

Day 1: Introduction to On Scene Commander Role and Responsibilities

- Overview of On Scene Commander's role within the emergency response structure.
- Understanding command and control principles.
- Incident Command System ICS: Structure and application.
