Training Course: Engineering & Management Excellence for Aspiring Facility Managers

Training Course code: SC235872 From: 29 September - 3 October 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 £ Euro

Introduction

In the modern landscape of Facility Management, professionals are required to possess a unique combination of technical expertise, managerial skills, and strategic insight to excel in their roles. Facility Management, particularly for those with an engineering background, has evolved beyond mere operational oversight to include leadership, strategic planning, risk management, and project execution. The shift from a technical specialist to a managerial role demands a comprehensive understanding of both engineering principles and management methodologies.

This training program, **Engineering & Management Excellence for Aspiring Facility Managers**, is meticulously designed to address the growing needs of professionals transitioning from technical roles into leadership positions within Facility Management. As the industry becomes increasingly complex, there is a pressing need for professionals who can integrate their engineering knowledge with effective managerial practices to enhance operational efficiency, ensure compliance, and drive organizational success.

Through a carefully structured curriculum, participants will gain a deep understanding of how to integrate their engineering background with effective management techniques. This will enable them to drive efficiency, enhance performance, and achieve excellence in Facility Management. Whether it's developing maintenance strategies, managing complex projects, or navigating organizational challenges, participants will be equipped to tackle these tasks with confidence and competence.

Target Audience

- Senior Specialists working in Facility Management.
- Engineers aiming to transition into managerial roles.
- Facility Management professionals looking to enhance their engineering and management capabilities.
- Aspiring managers aiming to improve their leadership skills.

Objectives

By the end of this training program, participants will be able to:

1. Integrate engineering knowledge with management principles to optimize facility operations.
2. Develop strategic planning and decision-making skills essential for new managers.
3. Enhance leadership capabilities to effectively manage teams and resources.
4. Understand essential aspects of risk management, maintenance planning, and project management.

5. Improve communication and reporting skills for effective management.

Outlines:

Day 1:

Fundamentals of Facility Management & Leadership Transition

- Overview of Facility Management: Engineering and Management Integration.
- Role of a Facility Manager: Technical vs. Managerial Responsibilities.
- Leadership for New Managers: Building Authority and Trust.
- Understanding Facility Management Standards and Certifications.
- Interactive Case Study: Transitioning from Specialist to Manager.

Day 2:

Strategic Planning & Decision Making

- Strategic Planning Essentials for Facility Managers.
- Decision-Making Models and Techniques.
- Resource Allocation and Optimization in Facility Management.
- Aligning Engineering Projects with Organizational Goals.
- Workshop: Developing a Strategic Plan for Facility Operations.

Day 3:

Risk Management & Maintenance Planning

- Risk Management Frameworks for Facility Managers.
- Preventative and Predictive Maintenance Strategies.
- Asset Management and Lifecycle Cost Analysis.
- Identifying and Mitigating Engineering Risks.
- Practical Exercise: Designing a Maintenance Plan.

Day 4:

Project Management Essentials

- Introduction to Project Management Principles for Facility Managers.
- Planning, Scheduling, and Budgeting Facility Projects.
- Quality Management and Control in Facility Projects.
- Effective Communication and Stakeholder Management.
- Workshop: Managing a Facility Project from Start to Finish.

Day 5:

Leadership & Communication Skills for Managers

- Developing Leadership Presence and Personal Branding.
- Effective Communication Strategies for Managers.
- Conflict Resolution and Negotiation Techniques.
- Reporting and Presentation Skills for Managers.
- Action Plan: Creating a Personal Development Roadmap.
