

*Training Course:
Cybersecurity Governance, Risk, and Compliance
Professional (GRCP)*

19 - 23 October 2025

Dubai (UAE)

Residence Inn by Marriott Sheikh Zayed Road, Dubai

Training Course: Cybersecurity Governance, Risk, and Compliance Professional (GRCP)

Training Course code: IT235920 From: 19 - 23 October 2025 Venue: Dubai (UAE) - Residence Inn by Marriott Sheikh Zayed Road, Dubai Training Course Fees: 4900 € Euro

Introduction

In today's fast-evolving digital landscape, the threats to information security, data privacy, and organizational integrity are growing more complex. To effectively manage these challenges, professionals must develop integrated capabilities in governance, risk management, and compliance GRC.

The Cybersecurity Governance, Risk, and Compliance Professional GRCP training program, designed by Global Horizon Training Center, offers participants a comprehensive foundation in GRC principles and their application within cybersecurity frameworks. While this course does not include a certification exam, it is designed to build the necessary knowledge and competencies aligned with industry best practices for professionals preparing for GRCP roles.

This program blends strategic understanding with operational insights to ensure participants are capable of implementing robust cybersecurity GRC systems that support organizational resilience and regulatory compliance.

Program Objectives

By the end of this program, participants will be able to:

- Understand the core concepts of governance, risk, and compliance in cybersecurity.
- Identify cybersecurity-related threats and vulnerabilities within organizational systems.
- Develop and implement risk-based frameworks to manage cyber risks effectively.
- Align GRC strategies with international standards and regulatory requirements.
- Strengthen cybersecurity posture through policy, awareness, and control mechanisms.

Course Methodology

The training is delivered using a mix of:

- Expert-led lectures and discussions
- Practical group exercises and workshops
- Real-world case studies and scenarios

- Cyber risk simulation and response planning
- Interactive Q&A and knowledge checks

Organizational Impact

Organizations that invest in this program will benefit from:

- Improved cybersecurity governance and decision-making frameworks
- Stronger internal control systems aligned with compliance requirements
- Reduced legal, reputational, and operational risk
- Increased stakeholder confidence through effective risk transparency
- A proactive and prepared cybersecurity culture across departments

Target Audience

This course is ideal for:

- Cybersecurity professionals and IT risk managers
- Governance, compliance, and audit professionals
- CISOs, Information Security Officers, and Risk Officers
- Policy makers and regulatory compliance officers
- Anyone seeking to build or enhance cybersecurity GRC capabilities

Course Outline

Day 1: Introduction to Cybersecurity Governance & GRC Frameworks

- Principles of governance, risk management, and compliance
- The role of GRC in cybersecurity
- Cybersecurity governance models and structures

- Overview of international standards ISO 27001, NIST, COBIT, etc.
- Establishing a GRC foundation within an organization

Day 2: Risk Management in Cybersecurity

- Identifying cybersecurity threats and vulnerabilities
- Risk assessment methodologies
- Risk appetite, tolerance, and prioritization
- Building and maintaining a cyber risk register
- Integrating risk management into the security lifecycle

Day 3: Compliance & Regulatory Requirements

- Understanding global and regional cybersecurity regulations GDPR, HIPAA, etc.
- Compliance audit processes and controls
- Data privacy and protection frameworks
- Penalties and consequences of non-compliance
- Preparing for compliance reviews and third-party audits

Day 4: Implementing Cybersecurity Controls & Policies

- Security policy development and governance alignment
- Control frameworks technical, administrative, and physical
- Incident response and breach management procedures
- Building cybersecurity awareness and training programs
- Integrating GRC into security operations

Day 5: Case Studies, Simulation, and Strategic Planning

- Analyzing GRC failures and success stories
- Group simulation: Cyber risk and compliance scenario
- Developing a GRC improvement roadmap

- Measuring GRC effectiveness: Metrics and KPIs
- Final review, participant feedback, and wrap-up
