## Training Course: Health & Safety Frontline: A Leadership Journey in Real-Time Response

Training Course code: HE235949 From: 20 - 24 October 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 £ Euro

### Introduction:

This advanced training program is tailored for health and safety leaders, field supervisors, and operational managers who are responsible for protecting people and assets under real-world conditions. The course takes participants through a series of hands-on, immersive experiences that build leadership capability, decision-making confidence, and high-stakes response readiness in live settings. Participants will not only enhance their technical HSE knowledge, but will also experience what it truly means to lead from the frontline.

### Objectives:

By the end of this course, participants will be able to:

- Apply advanced risk mitigation strategies during live drills and emergency simulations.
- Demonstrate correct use of personal protective equipment PPE in realistic scenarios.
- Lead a crisis response team through a structured chain of command in timed simulations.
- Conduct physical safety inspections and hazard identification walkthroughs on-site.
- Communicate under pressure using role-based simulations and face-to-face debriefing protocols.
- Evaluate behavioral safety through observed peer-to-peer field exercises.

### Course Methodology:

- Real-time scenario enactments and team-based field drills.
- Practical walkthroughs in designated safety zones or demo sites.
- Use of props, physical tools, and live equipment demonstrations.
- Group leadership challenges and tactical communication exercises.
- Facilitated feedback sessions and peer coaching circles.

### Target Audience:

- HSE Managers and Supervisors
- Safety Officers and Coordinators

- Emergency Response Team Leaders
- Operations Managers
- Facility & Site Supervisors

## Outlines:

### Day 1:

#### Operational Safety Leadership Fundamentals

- Defining the role of the safety leader in dynamic environments
- Field command principles and frontline decision-making models
- Live team activity: Leadership challenge using physical hazard mapping exercise in a controlled zone
- Debrief session with facilitator and peer feedback

### Day 2:

#### High-Risk Scenario Management

- Identification of high-risk areas through on-site walkthroughs
- PPE demonstration and supervised physical donning/doffing under time constraints
- Field drill: Simulated confined space entry with assigned safety roles
- Safety briefing and debrief as a communication practice tool

### Day 3:

#### Emergency Simulation & Real-Time Response

- Building situational awareness under pressure
- Crisis command structures and communication roles
- Live simulation: Fire evacuation drill with live role assignments and response time tracking
- After-action review and coaching discussion

### Day 4:

#### Behavioral Safety and Leadership Under Stress

- Understanding human factors in safety performance
- Observing unsafe acts and coaching safe behavior
- On-site exercise: "Unsafe behavior observation challenge" with real-time role-play
- Group feedback session with leadership reflection

#### Day 5:

##### Integrated Safety Leadership Challenge

- Final team challenge combining learned tools and leadership models
- Scenario: "Full-cycle incident response" from hazard identification to post-event briefing
- Peer evaluations and live panel assessment
- Certificate presentation and leadership reflections
