Training Course: Facility Intelligence: Behind the Operations Curtain

Training Course code: MA235948 From: 24 - 28 November 2025 Venue: Barcelona (Spain) - Grupotel Gran Via 678
Training Course Fees: 5500 € Euro

Introduction:

This comprehensive training program is designed and delivered by Global Horizon Training Center to equip professionals in the field of Facility Management with advanced and practical knowledge. The course focuses on the unique needs of large-scale development projects and modern infrastructure, incorporating everyday workshop-style interaction to ensure applied learning.

Participants will engage with real-world scenarios and problem-solving exercises that reflect the complex and evolving demands of managing critical facilities. Through focused modules on strategic planning, maintenance optimization, safety compliance, and smart technologies, the course ensures that attendees are well-prepared to enhance performance, minimize risks, and support sustainable operations.

Objectives:

By the end of the course, participants will be able to:

- Understand the core principles and functions of modern facility management.
- Apply best practices in preventive and predictive maintenance planning.
- Integrate sustainability and smart technology solutions into facility operations.
- Manage vendor and contractor relationships for optimal service delivery.
- Ensure compliance with health, safety, and environmental HSE standards.
- Utilize data analytics and FM software to improve asset performance and decision-making.
- Design facility strategies that align with long-term organizational goals.

Course Methodology:

- Interactive Workshops: Daily hands-on activities, case studies, and group problem-solving tasks.
- Expert Facilitation: Led by industry experts with deep experience in large-scale facility management.
- Practical Scenarios: Contextual learning using local and international facility management examples.
- Digital Tools Demonstration: Exposure to the latest CAFM systems and smart FM tools.
- Collaborative Learning: Emphasis on peer discussion and cross-functional understanding.

Organizational Impact:

Organizations that invest in this training can expect:

- Improved facility uptime and operational efficiency.
- Enhanced ability to manage and monitor outsourced services and contractors.
- Greater alignment between facilities and organizational performance objectives.
- Reduced operational costs through optimized maintenance and energy strategies.
- Increased safety, regulatory compliance, and risk mitigation.
- A more proactive, strategic FM team equipped to handle complex assets.

Target Audience:

- Facility Managers and Directors
- Maintenance Supervisors and Engineers
- Operations Managers
- Health & Safety Officers
- Project Managers Facilities/Infrastructure
- Asset and Property Managers
- FM consultants and service providers
- Anyone responsible for managing buildings, grounds, and equipment in large projects

Outlines:

Day 1: Foundations of Modern Facility Management

- Overview of Facility Management Functions & Scope
- Key Performance Indicators KPIs in FM
- Facility Lifecycle Management
- Organizational Alignment and Strategic FM Planning
- Workshop: Assessing Facility Challenges in Real Environments

Day 2: Maintenance Strategies and Asset Reliability

- Preventive vs. Predictive Maintenance
- Reliability-Centered Maintenance RCM
- Developing Maintenance Plans and Schedules
- Asset Condition Assessment and Risk Management
- Workshop: Creating a Maintenance Strategy for Critical Assets

Day 3: Smart Facilities and Technology Integration

- Introduction to Smart FM Systems CAFM, CMMS, BIM
- IoT in Facilities Management
- Real-time Monitoring and Energy Efficiency
- Data-Driven FM Decision-Making
- Workshop: Planning a Technology Upgrade for a Facility

Day 4: Health, Safety & Environmental Compliance

- HSE Regulatory Frameworks and Best Practices
- Emergency Preparedness and Facility Risk Planning
- Sustainable Facility Operations and Energy Management
- Waste, Water, and Environmental Controls
- Workshop: Conducting a Risk and HSE Audit Simulation

Day 5: Vendor Management and Service Delivery Excellence

- Contract Management in FM
- Performance-Based Service Level Agreements SLAs
- Managing Multi-Service Vendors and Outsourced Operations
- Quality Assurance and Continuous Improvement
- Workshop: Designing and Evaluating a Facility Services Contract
