Training Course: Anatomy of Shipping

Training Course code: SC235987 From: 24 - 28 November 2025 Venue: Barcelona (Spain) - Grupotel Gran Via 678
Training Course Fees: 6000 € Euro

Introduction:

The "Anatomy of Shipping" training program, designed by Global Horizon Training Center, provides a deep and practical understanding of the global shipping industry, its structure, key stakeholders, operational processes, and legal and financial aspects. With international trade increasingly relying on maritime transport, a clear grasp of the mechanisms behind shipping operations is essential for professionals working in logistics, port operations, maritime law, freight forwarding, and supply chain management.

Training Objectives:

By the end of this course, participants will be able to:

- Understand the structure and economics of the global shipping industry
- Identify the types of vessels and their uses in different trade routes
- Comprehend chartering types voyage, time, bareboat and freight market dynamics
- Interpret shipping documentation and the bill of lading
- Understand port operations, cargo handling, and loading/unloading procedures
- Analyze the legal and insurance aspects involved in shipping
- Evaluate environmental regulations and compliance requirements in shipping
- Recognize risk factors and apply risk mitigation strategies in maritime operations

Course Methodology:

- Instructor-led presentations and visual walkthroughs
- Interactive group discussions and real-world case studies
- Shipping documentation analysis and simulation exercises
- Video demonstrations of vessel types and cargo handling
- Team-based problem-solving workshops
- Daily recaps and Q&A sessions

Organizational Impact:

Organizations participating in this training will benefit through:

- Enhanced employee knowledge of global shipping operations and compliance
- Improved coordination between shipping, procurement, and logistics teams
- Greater efficiency in managing shipping documentation and port procedures
- Reduced risk exposure through better understanding of contracts and insurance
- Improved decision-making on chartering, cost estimation, and carrier selection
- Strengthened capability in managing imports, exports, and multimodal logistics

Target Audience:

This course is ideal for:

- Shipping and freight forwarding professionals
- Logistics and supply chain staff
- Port and terminal operations personnel
- Maritime law consultants and contract officers
- Procurement and international trade executives
- Insurance and risk management staff
- Anyone new to or involved in the maritime transport sector
