Training Course: Oil Supply & Trading: Pricing, Markets, Strategies, & Hedging (Mennta)

Training Course code: EN236044 From: 7 - 18 July 2025 Venue: London (UK) - Landmark Office Space - Oxford Street
Training Course Fees: 10600 € Euro

Introduction

The global oil markets are complex, fast-moving, and influenced by a wide range of geopolitical, economic, and technical factors. Professionals engaged in oil supply, marketing, or trading must possess a deep understanding of pricing mechanisms, physical and paper markets, risk management tools, and strategic approaches to thrive in this volatile industry.

The "Oil Supply & Trading: Pricing, Markets, Strategies, & Hedging Mennta" training course, developed by Global Horizon Training Center, offers an immersive and practical learning experience tailored for professionals involved in the commercial aspects of oil trading. This course is especially beneficial for individuals from Marketing Departments, enabling them to better understand how market dynamics impact product positioning, pricing, and commercial strategy.

Course Objectives

By the end of this course, participants will be able to:

- Understand the structure and operation of global crude and refined product markets.
- Interpret oil pricing benchmarks, indices, and differentials.
- Identify the key participants, instruments, and strategies in oil trading.
- Develop basic trading strategies and risk mitigation techniques.
- Apply hedging tools, including futures, options, and swaps.
- Recognize the impact of supply chain logistics on oil pricing and strategy.
- Bridge marketing and trading functions for business growth.

Course Methodology

The program is highly interactive and incorporates:

- Instructor-led sessions with real-time market data analysis
- Case studies from international trading hubs and companies
- Trading simulation exercises paper trades and scenario planning
- Group activities and strategy development workshops

- Visual tools: trade flows, pricing charts, and risk exposure matrices
- Role-play activities involving marketing and trading interactions

Organizational Impact

Organizations will benefit from:

- Improved alignment between marketing, supply, and trading teams
- Enhanced ability to respond to oil market volatility
- Better strategic planning through integrated market knowledge
- More effective risk management practices using financial instruments
- Greater commercial agility and informed pricing decisions

Target Audience

This course is designed for professionals involved in:

- Marketing and Sales in the oil and energy sectors
- Crude oil and refined product trading
- Supply chain and logistics for oil products
- Commercial and planning teams in oil companies
- Risk management and financial planning
- Business analysts and investment professionals in energy
