

*Training Course:
Customer Experiences in the Age of Artificial
Intelligence*

6 - 10 July 2025

Cairo (Egypt)

Holiday Inn & Suites Cairo Maadi, an IHG Hotel

Training Course: Customer Experiences in the Age of Artificial Intelligence

Training Course code: SC235990 From: 6 - 10 July 2025 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3875 € Euro

Introduction:

In today's digital era, customer experience CX has become the most crucial competitive differentiator for businesses across industries. With the transformative power of Artificial Intelligence AI, organizations now have the tools to revolutionize how they engage with customers, predict behavior, personalize experiences, and automate support.

The training program "Customer Experiences in the Age of Artificial Intelligence" is meticulously designed by Global Horizon Training Center to equip professionals with the knowledge and strategies needed to leverage AI technologies in enhancing customer experience. Participants will explore the intersection of AI and CX, covering AI-powered tools such as chatbots, recommendation engines, predictive analytics, sentiment analysis, and virtual assistants and how they can be aligned with organizational values and human-centric service.

Objectives:

By the end of this program, participants will be able to:

- Understand the core principles of AI and how they are transforming customer experience.
- Analyze key AI tools and technologies that impact customer service and engagement.
- Develop strategies for integrating AI into existing customer service models.
- Evaluate data-driven decision-making techniques to improve customer satisfaction.
- Design customer experience journeys enhanced by AI-driven personalization and automation.
- Manage the ethical, privacy, and trust challenges related to AI and CX.

Course Methodology:

This training program uses a blended learning approach, including:

- Expert-led presentations
- Real-world case studies and industry applications
- Interactive group discussions and workshops
- Hands-on exercises using AI tools and platforms
- Role-playing for CX scenarios enhanced by AI

- Strategic planning sessions for AI integration

Organizational Impact:

Organizations that enroll their teams in this program will benefit through:

- Enhanced customer loyalty through AI-enabled personalization
- Increased efficiency in customer support and service delivery
- Data-driven decision-making with improved CX metrics
- Future-proofing customer strategies by embracing innovation
- Improved customer retention and acquisition through predictive engagement
- Development of a forward-thinking, tech-savvy customer service culture

Target Audience:

This course is ideal for:

- Customer Experience Managers and Directors
- Marketing and Digital Transformation Professionals
- AI and Data Science Teams working on customer-facing applications
- Customer Service and Contact Center Managers
- Business Strategy and Innovation Officers
- IT and CRM System Professionals
- Anyone responsible for shaping or influencing customer experience in their organization

Outlines:
