Training Course: Mastering Treasury Management: Technical Strategies for Financial Control

Training Course code: FI236079 From: 10 - 14 November 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 5500 € Euro

Introduction

Treasury management plays a critical role in ensuring financial stability, liquidity, and operational efficiency for any organization. In today's dynamic economic environment, professionals must go beyond basic cash handling to understand complex financial instruments, regulatory compliance, liquidity strategies, and risk mitigation tools. This course, developed by Global Horizon Training Center, delivers an in-depth, technical approach to treasury operations and control mechanisms to equip participants with the knowledge and tools needed to master modern treasury management systems and practices.

Objectives

By the end of this training, participants will be able to:

- Understand the full scope of treasury functions and financial control systems
- Design and implement effective cash and liquidity management strategies
- Apply technical tools for forecasting, budgeting, and treasury reporting
- Assess and manage treasury risks including currency, interest rate, and credit risks
- Evaluate banking relationships, payment systems, and investment instruments
- Align treasury practices with organizational strategy and compliance requirements
