Training Course: Fundamentals of HSE Oversight for Contracted Operations

Training Course code: HE236112 From: 7 - 11 September 2025 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 6000 ₺ Euro

Introduction

This program provides essential knowledge and practical tools for professionals responsible for overseeing Health, Safety, and Environmental HSE aspects in contractor-managed operations. Designed for both client and contractor representatives, the course emphasizes risk reduction, legal compliance, and performance monitoring within outsourced and third-party work environments.

Target Audience

- HSE professionals and supervisors
- Contract managers and procurement personnel
- Site engineers and project managers
- Compliance officers and safety auditors
- Contractors' HSE coordinators

Objectives

By the end of this course, participants will be able to:

- Understand the fundamentals of HSE requirements in contractor operations
- Implement contractor prequalification and selection based on HSE criteria
- Develop and enforce effective HSE controls during project execution
- Monitor, audit, and improve contractor HSE performance
- Align contractor activities with legal, regulatory, and corporate HSE policies

Outlines:

Day 1:

Introduction to Contractor HSE Oversight

- Importance of HSE in contractor operations

- Key HSE roles and responsibilities client vs. contractor
- Common challenges and failures in outsourced HSE management
- Case studies: Incidents linked to poor contractor oversight

Day 2:

Contractor Prequalification and HSE Risk Assessment

- HSE criteria in contractor selection and bidding
- Developing contractor HSE assessment checklists
- HSE risk analysis in contractor scopes of work
- Legal and liability considerations in outsourcing

Day 3:

HSE Planning and Integration into Contracts

- Developing HSE plans for contracted work
- HSE clauses in contracts: What must be included
- Communication protocols and coordination mechanisms
- Safety file requirements and deliverables from contractors

Day 4:

Monitoring, Supervision, and Field Control

- Site induction and HSE onboarding for contractor staff
- Daily oversight: Permits to work, toolbox talks, inspections
- Performance monitoring tools and KPIs
- Managing unsafe acts and non-compliance

Day 5:

Auditing, Evaluation, and Continuous Improvement

- Conducting contractor HSE audits

- Incident reporting and investigation process for contractors
- Debriefings, post-job evaluations, and lessons learned
- Developing a contractor HSE improvement plan
- Certification and final course evaluation
