Training Course code: SC236222 From: 20 - 24 October 2025 Venue: London (UK) - Landmark Office Space - Portman Street Training Course Fees: 6000 □ Euro

Introduction

This intensive 5-day course is designed by [Global Horizon Training Center](#) to prepare participants for the [TOGAF® Enterprise Architecture certification Level 1 & 2](#) exams. TOGAF® is the most widely used framework for [enterprise architecture](#), providing structured methods for designing, planning, implementing, and governing enterprise information architecture.

Participants will learn the [core concepts, principles, terminology, and methods](#) defined in the TOGAF® Standard Version 10, along with practical application scenarios for Level 2. The program focuses on helping learners not only pass the exam but also [understand how to apply TOGAF in real-world enterprise architecture initiatives](#).

Objectives

By the end of this training, participants will be able to:

- Understand the key concepts and structure of TOGAF® Standard, Version 10
- Master the Architecture Development Method ADM and its phases
- Identify the content framework, reference models, and governance structures
- Apply TOGAF concepts in real-life architecture scenarios
- Prepare confidently for both [TOGAF Level 1 Foundation](#) and [Level 2 Certified](#) exams

Course Methodology

- Interactive lectures with real-life case studies
- Hands-on group exercises and whiteboarding
- Exam simulation questions and quizzes
- Visual aids and diagrams to reinforce core concepts
- Instructor-led discussions to bridge theory with application

Organizational Impact

Organizations whose teams complete this program will benefit from:

- A consistent, globally accepted enterprise architecture methodology
- Better alignment between IT and business strategy
- Reduced complexity in architecture governance
- Improved project delivery through structured design principles
- More effective communication across IT and business units
